Mohammed Rouabah

Software Engineer

Software engineer with almost 2 years of experience, specializing in integration, automation, and application development on the Salesforce platform.

I am actively seeking an opportunity to further develop my technical skills and contribute to impactful software projects.

Work experience

Salesforce Developer

From 2023 to 2024 **Eviden** Villeurbanne

Technologies used: APEX / LWC / MuleSoft / Postman

- Development and customization of applications on the Salesforce platform (**Flow, Process Builder, Apex**).
- Automation of processes and integration of internal and external systems with Salesforce (**MuleSoft, REST**).
- Documentation and user support for the implemented customizations.

On Connect

Since 2022 **Freelance** Saint-Etienne

Technologies used: Spring Boot / PostgreSQL / React JS

Personal project to develop a marketplace platform for exchange between clients and developers, visible from my portfolio: [onconnect](#)

AlpesTransport

From 2021 to 2022 **Freelance** Saint-Etienne

Technologies used: Wikibase / SPARQL / Python / Flask

Personal project undertaken during my academic coursework; the objective was to scrape transportation websites for use with Wikibase, available [here](#)

Skills

Object-oriented programming

Web development

Project management / database

Education

Master's degree in Computer Science

From 2022 to 2024 **Université Jean-Monnet** Saint-Etienne

Bachelor's degree in Computer Science

From 2017 to 2022 **Université Jean-Monnet** Saint-Etienne
